User Role (choose one)

Upload & Dashboard

Dashboard Only

The Upload & Dashboard role will have access to upload GIS data, ALI & MSAG to GIS Data Hub and allow access to all reports within GIS Data Hub.

The Dashboard role will have access to only the reports within GIS Data Hub.

#### AUTHORIZED USE OF GIS DATA

Once permission to the SD DIMES system is granted by the State 9-1-1 Coordination Board, the recipient will have access to the statewide dataset. The recipient agrees that any data or information available to them from the SD Dimes system, other than their own data, will only be used for official purposes and will not be sold or shared for any commercial purposes.

The State 9-1-1 Coordination Board may authorize release of the aggregated statewide data to any South Dakota PSAP, State or local government entity upon agreement that it will not be sold or shared for any commercial purposes. Requests for the statewide aggregated data from any other entity will be considered by the Board on a case-by-case basis while considering the primary intended use of this data is for public safety purposes within the SD NG911 system. Any requests received by the State or its service provider for local data will be referred to the local source of the data.

Once completed, please email to [SD911DIMES@geo-comm.com](mailto:SD911DIMES@geo-comm.com).
